

Engineering Change Order: ECO-2026-0915

Title: Replace processor in desktop computer system

Change type: part replacement

Old part: CPU-1110

New part: CPU-1115

Reason: The current processor CPU-1110 is being discontinued by the manufacturer. The replacement processor CPU-1115 uses a compatible socket and requires no motherboard changes.

Effective date: 2026-09-15

Affected product context:

The change applies to the Desktop Computer System motherboard assembly.

Implementation notes:

- Replace CPU-1110 Processor with CPU-1115 Processor.
- Verify CPU-1115 is compatible with the existing MB-1100 motherboard.
- Confirm COOL-1111 cooler mounting hardware fits CPU-1115.
- Review procurement records for supplier and lead time.
- Review installation guide CPU steps for updated torque specs.

Expected risk:

High. The affected part is the primary processor and impacts the motherboard assembly, cooler compatibility, and procurement records.
