

Desktop Installation Guide

CPU INSTALLATION

Install part CPU-1110 into the motherboard socket on MB-1100.

Apply thermal paste before mounting COOL-1111 on top of the processor.

Torque cooler mounting screws in a diagonal pattern to 12 in-lb.

MEMORY INSTALLATION

Insert RAM-1120 and RAM-1121 into the memory slots on MB-1100.

Confirm both modules are seated until the side clips lock.

CASE ASSEMBLY

Mount the motherboard MB-1100 into CASE-1300 using the supplied standoffs.

Install FAN-1310 in the rear exhaust position for airflow.
